8. Insurance Cover

8.1 Organisers Arrangements

The organisers have made arrangements to insure entrants and drivers against third party risks whilst taking part in such parts of the event as are held on private lands or roads specifically closed for the purpose. This insurance cover will come into effect from the start of the event and will cease at the end of the event or at the moment of retirement or disqualification or exclusion of a competitor.

8.2 Entrants and Drivers Requirements

Vehicles must have a valid motor insurance policy which provides as a minimum, Third Party Liability cover that complies with the Road Traffic Act. This can be either, by extending an existing motor policy to cover the event, or, by purchasing additional cover, provided under the Event Road Section Scheme as an adjunct to an existing motor policy.

If a competitor has an extension to their existing policy, they will be required to sign a declaration that the cover complies with the requirements of the Road Traffic Act. Any responsibility for a fraudulent or misleading declaration about existing cover lies with the competitor.

If a competitor wishes to purchase additional Road Section cover via the organisers then they can do so prior to the event providing they comply with the following:

- Is aged 19 years or older
- has held a full driving licence for a minimum of 6 months
- has no more than 6 points on their licence
- has had no more than 1 fault claim in the last 3 years
- is a named driver on a valid motor insurance policy for the vehicle they are driving
- do not have the Third-Party Extension cover on their existing motor policy
- the vehicle has a valid MOT and taxed for the road, unless exempt from doing so

Anyone aged less than 19 years old will also be accepted at the same price should their co-driver be a more senior member of their family or over 25. Any competitor who falls outside these parameters may be offered cover at equivalent terms or an agreed price, if approval from the Appointed Insurance Broker has been obtained by the event organisers, prior to the event. Approval can be sought by sending an email to info@kingfishermotorsport.com and provide:

- Drivers full name & their date of birth
- Date the driver passed their driving test
- Details of any motoring convictions and/or claims

Additional cover provided by this scheme is only effective whilst the vehicle is actively competing in the event and remains under the control or direction of the event organiser(s).

Cover will cease immediately if you are precluded, excluded or retire from the event.

The Event Road Section scheme is provided by Kingfisher Motorsport Insurance and underwritten by First Underwriting Limited.

Kingfisher Motorsport Insurance is a trading name of Kingfisher Insurance Services Ltd. Authorised and regulated by the Financial Conduct Authority No. 310218. Motorsport Ireland / Non-UK Crews / Non-UK Registered Cars

Crews with licences issued by Motorsport Ireland require a separate quotation from Kingfisher. Similarly, Non-UK resident competitors or those competing in Non-UK registered cars may also be subject to additional insurance premium costs.

The organisers are required to submit these non-standard policy requests to Kingfisher at least 7 days prior to the Event and so competitors affected must contact the Entries Secretary by 28th May 2026.

9. Advertising and Identification

Competitors are reminded that any event identification showing competition numbers must be completely removed on completion of or retirement from the event.

All Competitors are required to affix Event, and Sponsors decals in the prescribed positions, prior to presenting their cars to Scrutineering. These must remain in place throughout the event. Failure to do so will result in a refused start or disqualification.

Any names identifying the crew affixed to the car MUST relate to the actual crew in the car.

10. Tyres

All tyres used by competitors must comply with the National Competition Rules. Please note the restrictions imposed by NCR 13.16.7.

Studs, chains or non-skid attachments are NOT ALLOWED.

Hand cutting of tyres is NOT ALLOWED.

The recommended fuel supplier for the event is Vital Equipment Ltd. Fuel can be ordered via their website (www.vitalequipment.co.uk) or by calling them on 01981 241169.

The event organisers will not be involved in any of the on-event supply or requirements of fuel. The onus is solely that of individual competitors to arrange.

Re-fuelling is only allowed in the Refuelling Zone (RZ) and commercial fuel station. The refuelling of competitor's cars should, where possible, be undertaken at Petrol station Forecourts along the route.

No one should be in the vehicle e.g. driver, co-driver or any service personnel, and the engine should be stopped throughout the refuelling process. All personnel involved in refuelling operations must wear clothing that provides adequate protection against fire and includes at least: long trousers, long-sleeved top, closed shoes, gloves and a balaclava. The requirement of protecting the ground with an Environmental Mat, which shall be composed of an absorbent upper part and an impermeable lower part, is assigned to the competitors.

The health and safety of management car crew, service crew and competition crew must always be put first

Appendix 5 – Safety Tracking

SR:15 - TRACKERS, SUPPLY, FITTING AND RETURN

1 TRACKER FITTING

In association with RBI Sport Geotraq, the rally will operate a mandatory GPRS/GSM safety tracking system that will enable the speed and position of each competing vehicle to be monitored and logged. Tracker units will be provided as part of the entry fee and should be fitted by the competitor with guidance from the supplier, Geotraq, prior to scrutineering. Competitors / Service Crews will be guided and assisted in the fitting, so they are familiar with how it is done in order to facilitate the subsequent removal at the end of the event.

The Tracker is fitted by means of a bracket which is tightened around the roll cage on the co-driver's side of the vehicle. A USB-C connection wire is connected to the device which is linked to a remote SOS button (if issued). This wire should be tie-wrapped to the roll cage and the remote SOS button attached to the Driver's door panel or a reachable location on the Driver's side of the vehicle using velcro or similar. There is no requirement for a 12v feed direct from the battery into the cockpit on the co-driver's side with an inline 6 amp fuse on the positive connection. All necessary fittings for the tracker unit are supplied and can be fixed in place by Geotraq, but competitors / service crews can assist in the attachment of the clamp fitting and should so the feeding /attaching of the remote SOS wire/button, to ensure it does not interfere with any of the vehicles other cabling and / or fittings and is within reach at all times while belted into the seat.

2 TRACKER OPERATION

The Geotraq tracker includes SOS, OK, Hazard and Overtake functions plus the driver has access to a remote SOS button. All competitors MUST familiarise themselves with the tracker and its operation prior to the event.

SOS	Alerts Rally Control of the requirement for emergency response and alerts approaching competitors
Hazard	Alerts approaching competitors of a potential blockage / danger and notifies Rally Control
Overtake	Alerts competitor ahead that following vehicle wishes to overtake (request and response recorded for Rally Control)
OK	Confirms OK that stopped car does not require attention and also used to cancel other operations.

Please follow YouTube link below for tracker operation information (NB Danger button has been replaced by Hazard) <https://www.youtube.com/watch?v=6hSXuu6DcyE>

3 TRACKER RETURN

Trackers, attachments and all cabling will be collected prior to MC2 the Final Control. If the competitor does not attend the Final Control, it is their responsibility to ensure that the tracker, attachments and all cabling are returned to Geotraq personnel at the collection point or at Rally HQ as soon as possible.

Should you retire from the event, please return your tracking device to Geotraq personnel at Rally HQ as soon as possible. Failure to return the tracker or returning the tracker in a damaged state will result in financial penalties outlined in the document "DAMAGE / NON-RETURN CHARGES FOR GPS/SATELLITE TRACKING EQUIPMENT" on the Digital Notice Board, and payment taken either in cash or from the "Paper Deposit Form".

If the tracking device is not returned or payment has not been made to the supplier for loss or damage, the crew will be reported to Motorsport UK under NCR 2.1.1.7 and your competition licences will be suspended until payment is made or the undamaged tracking device is returned. In accordance with Motorsport UK Stage Rally Safety Requirements non-return of a unit will be treated as per failure to hand in damage declaration (NCR 13.13.14)
