

Drug & Alcohol Testing

1. Donor Selection

- Racoo Screening randomly selects the team personnel (donors) to be tested.
- The donors are given a face mask and gloves.
- The test comprises of a 'non-invasive' oral fluid drug screen and breath alcohol test.
- All donors must provide samples and refusal is a disciplinary offence.

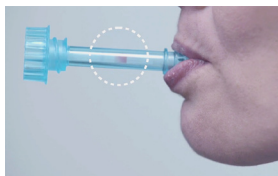

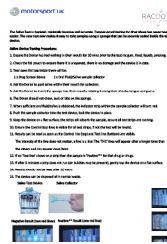

2. Sample Collection Form

- A confidential sample collection process.
- A colleague can act as a witness if required, no time delay allowed.
- Chain of Custody protocols are followed.
- Sample Collection Form completed.
- If a refusal or 'no show', the individual is instructed to leave the circuit.
- Sample collection takes approx 15 minutes.

A detailed form for sample collection, including fields for driver name, team, date, time, and test results. It also includes a section for the collector's signature and a witness's signature.

3. Oral Fluid Drug Screen

- Oral Fluid screen for drug detection.
- Accurate, non invasive, quick and dignified.
- A swab is rotated around the mouth to collect the sample.
- Once adequate amount, the swab is inserted into the test device, analysis commences.
- Results are visible within 5 minutes.
- If a 'non-negative' screening result, further samples are taken for Laboratory analysis.

4. Saliva Alcohol and Breath Alcohol Tests

- A Saliva test is firstly used to screen for Alcohol.
- If required, the Sample Collector will conduct a Breath Alcohol test and record details on the form.
- A calibrated instrument is used.
- If a reading other than '0', they will wait and conduct another test.
- If the second test is above '4', this will be reported as a positive result.

5. Laboratory Analysis

- This is required following 'non-negative' screening results
- Two further oral fluid/saliva samples are collected.
- The samples are signed & dated, barcoded and transported in tamper proof packaging.
- Laboratory Confirmatory analysis is performed to determine substances present in the sample.
- Laboratory results are reported to Motorsport UK within 7 working days.
