

RACRMC Newsletter February 2021

Welcome to the February Newsletter

As February draws to a close a lot has happened in the world since the last update.

The first dose of Covid Vaccinations have reach over 18 million people and probably the majority contingent of the Historic Rally field maybe!!

The Forestry England review has been published, which now allows rallying to restart in the English forests, we now just need an agreement between Motorsport UK and Forestry England and Forest and Land Scotland to agree rates for this year to allow us in.

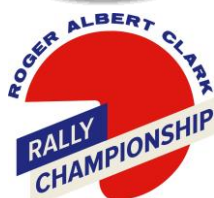

All the championships events to Mid June have can cancelled their events and the revised calendar as we know it now is below.

Fuchs Lubricants Motorsport UK British Historic Rally Championship Calendar 2021

A Transport section will be used to Wales at a location still to be confirmed.

The planned restart time on Sunday is 12.00 noon, it is expected that the transport distance for a car would be around 3 hours.

As soon as this location is confirmed another update will be released.

The event will be 350 stage miles.

We are still hopeful to open entries sometime in April.

Finally

Nicola and I would like to wish everybody well and hope we are all keeping safe and that we will get back to our sport hopefully in June.
