9. Insurance Cover

9.1 Organisers Arrangements

Motorsport UK has agreed a new Master Road Section Top-Up Insurance Policy arranged by Kingfisher Motorsport and underwritten by First Underwriting. This new policy will help ensure participants have access to the minimum third-party cover legally required for vehicles using the public highway.

9.2 Entrants and Drivers Requirements

Competitors are responsible for ensuring they have appropriate insurance cover in place for their activities whilst travelling to and from the Event, as well as during the Event itself.

The Motorsport UK Master Public Liability policy provides third party cover for activities falling under the Event Permit, but this policy specifically excludes any form of Road Traffic Act liability.

An additional third party “top-up” insurance policy, administered by Motorsport UK, is available to add-on for this Event which offers cover for Road Traffic Act liability for any sections of the Permitted Event that take place on the public highway. This policy provides cover to compliment but not replace your own motor insurance.

The acceptance criteria for this scheme are as follows:

- Drivers must be aged 19 years or older
- Drivers must be UK residents for over 1 year, and have held a Full UK Car Licence for at least 6 months
- Drivers must have not been banned from driving in the last 5 years, and no criminal convictions
- Drivers must have no more than 6 penalty points on their licence and/or no more than 1 fault motor claim in the last 3 years in their history
- Drivers must be a named driver on a valid motor insurance policy for the vehicle they are driving
- Drivers must not already have the 3rd Party Extension (top-up) for Road Sections cover already on their existing motor policy
- Vehicles must have a valid MOT and taxed for the road (unless exempt from doing so)
- Vehicles must be road going/road legal and have a UK Registration Plate assigned and attached
- Vehicles must be in the custody or control of the competitor and be participating in a motorsport event permitted by the Policyholder (Motorsport UK Association Ltd)

Competitors who do not comply with any of the above criteria must contact Kingfisher Motorsport at motorsportuk@kingfishermotorsport.com as early as practically possible in advance of the event to discuss their application to confirm whether cover can still be offered and whether there are any additional terms.

All Competitors will be required to sign a declaration before the Event to confirm that they either have adequate insurance cover for the Event or need cover under the Motorsport UK top-up policy. If they do not meet the minimum eligibility criteria, they must have referred themselves to and been approved by Kingfisher before the start of the Event.

Those Competitors who do require cover under the Motorsport UK top-up policy will be required to pay the organiser's an additional fee to cover the Motorsport UK permit surcharge.

At the time of publication of these SR's, we are unable to confirm the exact price of this scheme. Therefore, a provisional sum, before any loadings, of £50 (including insurance premium tax at 12%) has been included within these regulations as the basic rate per driver for the insured event.

Motorsport Ireland / Non-UK Crews / Non-UK Registered Cars

Crews with licences issued by Motorsport Ireland require a separate quotation from Kingfisher Motorsport. Similarly, Non-UK resident competitors or those competing in Non-UK registered cars may also be subject to additional insurance premium costs.

Crews MUST contact motorsportuk@kingfishermotorsport.com to obtain cover.

10. Advertising and Identification

The organisers will provide each crew with the advertising decals, identity stickers and numbers as in Appendix 3 of these SR's "Decals and position of supplementary advertising"

Obligatory organisers advertising is in locations A, B & C. The optional (SR:6.8.) organisers associate sponsor advertising panel in location E of Appendix 3.

Restrictions may be imposed on tobacco related advertising NCR 6.1.8.1(e).

Competitors are reminded that any event identification showing competition numbers must be completely removed on completion of or retirement from the event.

All Competitors are required to affix Event, and Sponsors decals in the prescribed positions, prior to presenting their cars to Scrutineering. These must remain in place throughout the event. Failure to do so will result in a refused start or disqualification.

Any names identifying the crew affixed to the car MUST relate to the actual crew in the car.

11. Tyres

All tyres used by competitors must comply with the National Competition Rules. Please note the restrictions imposed by NCR 13.16.7.

Studs, chains or non-skid attachments are NOT ALLOWED.

Hand cutting of tyres is NOT ALLOWED.

In accordance with NCR 13.16.7.11, the approved maximum quantity of tyres to be used by each competing car on the Rally Anglo Caledonian is restricted to 14 Tyres. **For other events the maximum is 10.**

12. Fuel

All types of fuel used must follow FIA Appendix J Art. 252.9 & NCR 8.1.1.7.

17.6 Penalties

Competitors will start with zero penalties. Classification for the results will be determined by total time penalties, the winner being the Competitor with the least total time penalty.

In the event of a tie, the winner will be the Competitor who has completed the greatest distance from the start with the least Stage penalties.

On special stages where artificial chicanes are in use, it is the responsibility of the competing crew to negotiate these with sufficient care to avoid hitting any part or element of these chicanes. Any contact, by a competitor, with equipment used to construct these chicanes will be penalised by 1 (one) minute on the first instance, 10 minutes on the second and DISQUALIFICATION on any further instance. Judges of Fact will be in place at each location.

The penalties in NCR 13.14.1 apply, unless specifically modified in these Supplementary Regulations.

Any car not starting from the start line within 20 seconds after the start signal will be considered as retired and immediately moved to a safe place.

17.9 Re-join after missing controls.

A crew which has failed to complete a section may re-join on any subsequent section. All crews wishing to do this MUST inform the Event Secretary.

The competitor must advise the organisers of the reason for the retirement (e.g. accident, technical problems, etc.) and the intention to have the car re-scrutineered in order to re-join the event. This shall apply to any crew which has been classified on the grounds of exceeding the time limit or has failed to visit a control but shall NOT APPLY where a crew has been disqualified for breach of eligibility requirements, traffic infringements or by decision of the Stewards. Competitors who have missed a control or special stage may only rejoin the rally from a subsequent Service Out Control (NCR 13.13.15.2).

A list of persons acting as Judge of Fact and Driving Standards Observers will be published on the Digital Notice Board.

It will not be necessary to prove that a traffic offence was committed, as the involvement of the Police may give rise to contravention of NCR 2.1.1.5. The competitor

Appendix 5 – Safety Tracking

SR:15 - TRACKERS, SUPPLY, FITTING AND RETURN

1 TRACKER FITTING

In association with RBI Sport Geotraq, the rally will operate a mandatory GPRS/GSM safety tracking system that will enable the speed and position of each competing vehicle to be monitored and logged. Tracker units will be provided as part of the entry fee and should be fitted by the competitor with guidance from the supplier, Geotraq, prior to scrutineering. Competitors / Service Crews will be guided and assisted in the fitting, so they are familiar with how it is done in order to facilitate the subsequent removal at the end of the event.

The Tracker is fitted by means of a bracket which is tightened around the roll cage on the co-driver's side of the vehicle. A USB-C connection wire is connected to the device which is linked to a remote SOS button (if issued). This wire should be tie-wrapped to the roll cage and the remote SOS button attached to the Driver's door panel or a reachable location on the Driver's side of the vehicle using velcro or similar. There is no requirement for a 12v feed direct from the battery into the cockpit on the co-driver's side with an inline 6 amp fuse on the positive connection. All necessary fittings for the tracker unit are supplied and can be fixed in place by Geotraq, but competitors / service crews can assist in the attachment of the clamp fitting and should so the feeding /attaching of the remote SOS wire/button, to ensure it does not interfere with any of the vehicles other cabling and / or fittings and is within reach at all times while belted into the seat.

2 TRACKER OPERATION

The Geotraq tracker includes SOS, OK, Hazard and Overtake functions plus the driver has access to a remote SOS button. All competitors MUST familiarise themselves with the tracker and its operation prior to the event.

SOS	Alerts Rally Control of the requirement for emergency response and alerts approaching competitors
Hazard	Alerts approaching competitors of a potential blockage / danger and notifies Rally Control
Overtake	Alerts competitor ahead that following vehicle wishes to overtake (request and response recorded for Rally Control)
OK	Confirms OK that stopped car does not require attention and also used to cancel other operations.

Please follow YouTube link below for tracker operation information (NB Danger button has been replaced by Hazard) <https://www.youtube.com/watch?v=6hSXuu6DcyE>

3 TRACKER RETURN

Trackers, attachments and all cabling will be collected prior to MC2 the Final Control. If the competitor does not attend the Final Control, it is their responsibility to ensure that the tracker, attachments and all cabling are returned to Geotraq personnel at the collection point or at Rally HQ as soon as possible.

Should you retire from the event, please return your tracking device to Geotraq personnel at Rally HQ as soon as possible. Failure to return the tracker or returning the tracker in a damaged state will result in financial penalties outlined in the document "DAMAGE / NON-RETURN CHARGES FOR GPS/SATELLITE TRACKING EQUIPMENT" on the Digital Notice Board, and payment taken either in cash or from the "Paper Deposit Form".

If the tracking device is not returned or payment has not been made to the supplier for loss or damage, the crew will be reported to Motorsport UK under NCR 2.1.1.7 and your competition licences will be suspended until payment is made or the undamaged tracking device is returned. In accordance with Motorsport UK Stage Rally Safety Requirements non-return of a unit will be treated as per failure to hand in damage declaration (NCR 13.13.14).
